

AQ1 & AQ2

Inline food filter/coffee filter

A simple and effective solution to the problem of food sediment and coffee grounds in kitchen effluent.

No service cost required

Kitchen staff are simply required to empty the contents of the filter basket into a bin daily/as required

Simple, clean, easy maintenance

Ergonomically designed filtration basket allows for easy maintenance and waste disposal

Patented fresh mesh filtration

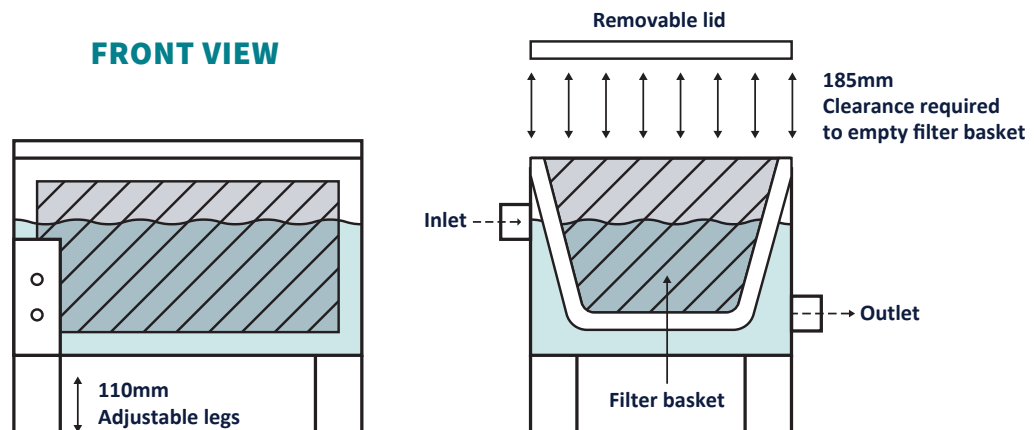

Unique filtration basket system allows for highly efficient separation of solid waste from water

Super fine filtration basket

Removes 99% of food and sediment waste using its internal super fine >1mm filtration

Constructed of corrosion resistant materials

1.2 mm 304 stainless steel with 10 years warranty

Model	Height	Depth	Width	Inlet (H) to centre	Outlet (H) to centre
AQ1	180mm	300mm	230mm	120mm	35mm
AQ2	180mm	400mm	300mm	120mm	35mm

(Please allow extra room for pipes and fittings)

Applications: Food preparation sinks and coffee machines
